

## World Braille Day - January 4th

Braille is the tactile writing system that has empowered millions of visually impaired individuals worldwide. This day serves as a reminder of the impact Braille has had on accessibility, literacy, and independence for people with visual impairments, highlighting the importance of inclusive education and equal opportunities.

### HOW CAN WE CELEBRATE?

- Visit [www.nbp.org](http://www.nbp.org) to learn about **Louis Braille**, the inventor of Braille
- **Reflect** on the importance of **accessibility and independence** for people who are blind or visually impaired
- **Enhance** your understanding of the importance of **Braille in healthcare**
